

# **General Ophthalmologist/Cataract Surgeon Needed for Ophthalmology Practice**

A busy five physician ophthalmology group practice located in a historic southeastern community seeking an outstanding **general ophthalmologist/cataract surgeon** with opportunity for partnership. Other subspecialties would be considered but not required. This is an outstanding practice opportunity located in a friendly and progressive southern community with an active environment of a larger city.

## **Immediate Surgical Volume / Four Day Work Week**

The new physician will immediately step into a busy practice. The incoming surgeon will see at least 30 patients per day to start and can anticipate performing between **200-300 cataracts** in the first year of practice. Enjoy the benefits of joining the regional eyecare provider including a shared call schedule and a **four day work week**. All surgery is currently performed at a community hospital ASC with ownership opportunity. The incoming surgeon will receive a very competitive income guarantee with the potential for a production incentive bonus, full benefits and a partnership track.

## **Southern Comfort with a Metropolitan Twist!**

The practice is located in a picturesque university community of approximately 65,000 with a patient base that includes several surrounding counties within a thirty (30) mile radius of approximately 207,000. The area has been recognized as a Top 50 “Best Town in America”. Known for its outdoor activities centered on a regional lake (212 miles of shoreline), year-round festivals, several theaters and museums, historical attractions and several golf courses; with over 100 community restaurants, residents can enjoy a variety of ethnic cuisines or enjoy some old-fashioned southern meals. The regional hospital system is a modern and progressive facility with recognized neurosurgery and cardiac surgery programs while the city is also home to a nationally recognized genetics research center. An excellent local school system (public and private), a University (3,500 students) and a regional Technical College (5,000 students) have provided the community with a highly educated workforce. The community is located only an hour drive to several metropolitan cities as well as being within two (2) hours of the mountains and Atlantic beaches.
