General Information

Self Regional Healthcare (SRH) is a nonprofit, regional healthcare system headquartered in Greenwood, South Carolina, serving approximately 300,000 residents across the Lakelands region. The system includes SRH Medical Center, Abbeville Area Medical Center, Edgefield County Healthcare, and a network of primary care, specialty care, rural health, and outpatient facilities throughout its service area.

Background Information

SRH is experiencing sustained growth in its Perioperative Service Line while operating room infrastructure and surgical equipment are at or nearing end-of-life and end-of-service. Surgical volume increased from 8,564 cases in FY23 to 10,934 cases in FY25, a 27.7% increase, and FY26 year-to-date volume reached 6,553 completed cases. Aging lights, booms, monitor arms, and integration systems create risks of delays, downtime, workflow disruption, and reduced scheduling flexibility.

Federal Funding Notice: This project is supported by the Centers for Medicare & Medicaid Services (CMS) Rural Health Transformation Program (RHTP) through a subaward from the State of South Carolina. SRH was awarded $30,966,205.28 in federal RHTP funds, which represents 100% of the total project costs.

As a result, the selected vendor and any subcontractors may be subject to applicable federal requirements. Proposers should refer to the Terms, Conditions, and Federal Requirements section of this RFP for additional information.

Goals

- Modernize aging perioperative infrastructure and equipment.
- Improve perioperative operational efficiency and throughput.
- Strengthen surgical capacity to meet growing regional demand.
- Reduce equipment-related disruptions, delays, and downtime.
- Support recruitment and retention of specialty surgeons.
- Preserve local access to advanced surgical care for rural Lakelands residents.
- Strengthen the long-term sustainability of the region's primary rural-serving referral system.

Objectives

- Replace end-of-life or end-of-service lights, equipment booms, monitor arms, and OR integration systems in operating rooms 1–5, 11, 12, and 14.
- Complete installation, validation, staff training, operational transition, and project closeout by September 2027.

Anticipated Contract Term

Anticipated implementation period: January 2027 through September 2027. Any resulting equipment warranties, maintenance arrangements, support terms, and renewal options must be identified in the proposer's response and finalized in the agreement.

Scope Overview

SRH seeks a qualified vendor or coordinated vendor team to furnish, deliver, install, integrate, test, commission, and support perioperative infrastructure and surgical equipment for operating rooms 1–5, 11, 12, and 14 and designated procedural areas. The work includes surgical lights, equipment booms, monitor arms, and OR integration systems. Implementation must be phased to minimize disruption to surgical operations and maintain patient access.

RFP Instructions & Protocols

Notice to Interested Parties

Proposals must be submitted as a single PDF by email to RHTP@selfregional.org by December 12, 2026, before 11:59 p.m. EST ("RFP Submission Deadline").

The single PDF must include the complete proposal and all required appendices and supporting documents.
The email subject line must state: "**RFP Response_RFP Title_RFP #_Proposer Organization Name**."

Response and Communication Protocols

Do not contact the requesting department. Interested proposers must email all questions and requests for additional information to RHTP@selfregional.org by December 12, 2026, before 11:59 p.m. EST (the "RFP Submission Deadline"). The solicitation number and title must appear in the email subject line. Attempts to circumvent this requirement may result in rejection of the proposal as noncompliant.

SRH will issue official responses to proposer questions and any amendments to this RFP in writing. Only written responses and addenda issued by SRH are binding. Proposers are responsible for reviewing and acknowledging all addenda issued before the proposal deadline. Oral statements, informal communications, or information provided by any other source may not be relied upon.

RFP Organization and Format

Responses must follow the prescribed format detailed below in order to be accepted.

Proposers should organize their proposals in the order listed below.

1. Transmittal Letter
2. Project Narrative, including a response to each Project Specification
3. Pricing
4. Appendix A: Signature Page
5. Appendix B: Deviation Form
6. Appendix C: Conflict of Interest Questionnaire
7. Appendix D: Certification Regarding Lobbying (if applicable)
8. Appendix E: Insurance Requirements

Transmittal Letter

Proposer must submit a transmittal letter that accomplishes the following:

- Proposer's name and contact information
- Brief statement of interest in the project
- Length of time the proposal and pricing will remain valid (minimum of 60 days required)
- Name, title, and signature of an authorized representative
- Brief summary of relevant qualifications and experience
- Any exceptions to the RFP requirements or terms
- Confirmation of the proposer's SAM.gov registration status, if applicable, and confirmation that the proposer and its proposed subcontractors are not subject to an applicable federal exclusion or debarment.

Project Narrative

The proposer should provide a detailed narrative describing its qualifications and proposed approach. The narrative should address each requirement included in the Project Specifications section and include the following:

1. The proposer should provide a statement explaining why it is uniquely qualified to provide the requested goods or services to SRH.

2. A summary highlighting the most important elements of this proposal.
3. Details about the proposer's overall qualifications and ability to address each specific requirement in the Project Specifications section of this RFP.
4. The qualifications, physical location, and background of the personnel who will be directly involved with this project.
5. Include a statement confirming that the proposer agrees to complete all applicable background checks and screenings, if required, before personnel begin work at SRH and/or affiliate facilities and to comply with SRH's identification, access, safety, and security requirements for on-site personnel.
6. If applicable, provide a list of current or recent clients receiving similar products or services, including each client's contact information, the size or scope of the engagement, and the length of service.
7. If applicable, disclose any current or pending litigation or regulatory matter that could affect the proposer's ability to perform the work. Disclosure will not automatically disqualify a proposer; however, failure to disclose may affect the proposer's eligibility or any resulting agreement.
8. If applicable, detailed technical information about the proposed solution and the infrastructure needed for implementation and ongoing support. This may include hardware, network, communications, third-party software, system integration, and other technical requirements.
9. Identification of all proposed subcontractors and subprocessors, including their roles, the products or services they will provide, and the portions of the work for which they will be responsible.

Optional Features, Products, and Supplemental Features

Proposers are encouraged to describe in detail any optional features, products, or services that could benefit SRH but are not included in the minimum requirements of this RFP. Optional items may include additional training, maintenance, enhanced service levels, alternative pricing options, upgrades, or other supplemental offerings.

Each optional item should be clearly described and identified separately from the primary proposal. Pricing for optional items should be itemized separately and should not be included in the base proposal price.

Insurance Coverages

Proposers must maintain the insurance coverages in accordance with Appendix E.

Quality Assurance

The proposer should describe its quality assurance processes, including how it will monitor performance, identify and correct deficiencies, document quality activities, and report results to SRH. The response should identify applicable performance measures, escalation procedures, and responsibility for corrective action.

References

Provide a minimum of three (3) customer references for projects involving goods or services similar to those requested in this RFP. References should relate to comparable projects completed by the proposer, preferably for hospitals or other healthcare organizations. For each reference, include the organization's name, contact person, address, telephone number, and email address.

NOTE: SRH will not accept references submitted after the proposal deadline or by a method other than the one identified in this RFP. SRH may contact the references to confirm or clarify the information provided and may consider those responses when evaluating proposals. SRH is not required to seek clarification of incomplete reference information.

Proposal Pricing

Pricing should be itemized for all products and services requested in this RFP. Brief notes may be included when needed to explain a specific line item. The proposer should include all costs associated with its proposal and clearly identify any assumptions, exclusions, optional costs, or additional fees. SRH may select and award the products or services that best meet its needs.

Payment and Discounts

The proposer should include a proposed payment schedule that aligns with the pricing provided and the anticipated agreement. The proposer should also describe any available discounts, including early-payment discounts and the terms

under which each discount would apply.

Evaluation and Review Process

Review Process

This RFP is not intended to favor any proposer and is designed to identify the proposal that provides the best overall value to SRH. The Evaluation Committee will review and evaluate the proposals, or individual portions of the proposals. Following the initial evaluation, SRH may identify a short list of proposers for further consideration. SRH may conduct discussions or interviews with those proposers and may negotiate final pricing, schedules, and other terms before making a final selection. Any final selection will be subject to SRH's applicable review and approval process.

SRH may reject any proposal that is late, materially incomplete, nonresponsive, or not submitted in accordance with the requirements of this RFP.

Evaluation Methodology

Each RFP response will be evaluated and scored using the criteria below. Each category will be scored from 0 to 5. Scores will support SRH's determination of the proposal that provides the best overall value, subject to any discussions, interviews, negotiations, and required reviews or approvals.

Evaluation Criteria

Scoring Category	Description	Maximum Points Available
Relevant Experience & References	Demonstrated experience with similar projects, qualifications, past performance, and references.	5
Technical Approach	Understanding of requirements, quality of proposed solution, methodology, and innovation.	5
Project Timeline & Work Plan	Realism and feasibility of implementation schedule, milestones, and project management approach.	5
Organizational Capacity	Availability of staffing, resources, infrastructure, and ability to successfully complete the project.	5
Cost/Price	Cost reasonableness, value for money, and alignment with proposed scope of work.	5
	Total Points Available	**25**

When determining how many points to give each scoring category, the following rating scale can be used:

Rating Scale

Rating	Descriptor	Guidance
5	Exceptional	Addresses the scoring category exceptionally well, with clear and convincing information, substantial strengths, and no significant weaknesses.
4	Very Good	Addresses the scoring category well, with sufficient supporting information, clear strengths, and only minor weaknesses.
3	Acceptable	Adequately addresses the scoring category and provides sufficient information for evaluation. Any weaknesses are manageable.
2	Marginal	Partially addresses the scoring category but includes significant weaknesses, gaps, or unclear information.
1	Poor	Minimally addresses the scoring category and includes major weaknesses, substantial gaps, or insufficient supporting information.
0	Unacceptable / Unresponsive	Does not address the scoring category or provides information that is insufficient or unacceptable for evaluation.

Project Specifications

Your proposal must specifically address, in narrative form, each requirement specified herein. You must confirm and describe your ability and intention to meet each requirement. Failure to address a specified requirement can result in disqualification of your proposal.

The proposed solution must address the project requirements below and clearly identify any exception, third-party dependency, or item that is not currently available and remains on a future product or service roadmap. Responses must describe the technical approach, implementation responsibilities, staffing, schedule, risks, pricing, reporting, security, privacy, responsible AI controls, training, support, service levels, and transition assistance.

Project Requirements

- Provide replacement OR lights, equipment booms, monitor arms, and OR integration systems for operating rooms 1–5, 11, 12, and 14.
- Include delivery, installation, integration, configuration, testing, validation, commissioning, training, warranty documentation, and transition support.
- Identify required electrical, structural, cabling, network, interface, mounting, or other site modifications.
- Coordinate phased work to minimize room closures, scheduling disruption, and impact on patient access.

Operational Experience

- Describe experience completing comparable perioperative modernization projects, preferably for hospitals or rural-serving health systems.
- Identify the proposed project manager, installation team, integration specialists, trainers, and service personnel, including qualifications and locations.
- Explain the approach to infection prevention, worksite safety, equipment protection, room turnover, and continuity of surgical operations.
- Describe manufacturer authorization, supply-chain readiness, parts availability, preventive maintenance, warranty service, and post-installation support.
- Explain quality controls for delivery, installation, testing, acceptance, and issue resolution.

Billing and Pricing

- Provide itemized pricing by room and equipment category, separating equipment, freight, installation, integration, training, warranties, maintenance, taxes, and optional costs.
- State proposal validity, payment milestones, discounts, escalation assumptions, and all exclusions or contingencies.
- Identify any infrastructure modifications or third-party services not included in the base price.

Project Management and Documentation

- Provide a project schedule, submittal log, equipment list, delivery status, installation progress, risk and issue log, training records, testing results, acceptance documentation, warranty records, and final closeout package.
- Support SRH monitoring of annual surgical volume, equipment-related delays or cancellations, OR turnover time, completion of planned infrastructure upgrades, equipment modernization, and surgical scheduling capacity and throughput.
- Coordinate documentation with perioperative services, anesthesia, facilities management, supply chain, biomedical engineering, information technology, finance, compliance, and project leadership.
- Protect patient, operational, and system information and comply with applicable healthcare, safety, security, and access requirements.

Implementation

The proposer should describe its approach to implementation and transition in sufficient detail for SRH to evaluate feasibility, risk, and readiness. The response should address the following:

- Proposed project plan and schedule, including phasing by operating room and anticipated room closures.
- Critical-path activities and the dependencies that could affect the schedule, including SRH-dependent tasks, third-party dependencies, and required site modifications.
- Responsible parties for each activity, distinguishing proposer, subcontractor, manufacturer, and SRH responsibilities.
- Staffing plan, including key personnel, on-site presence, and availability during installation and go-live.
- Testing, validation, and acceptance procedures.
- Training plan for perioperative, biomedical engineering, and other support staff.
- Go-live and stabilization support for each phase.
- Issue escalation procedures and points of contact.
- Defect correction process and response times.
- Ongoing support following project closeout.
- Approach for addressing delays or missed milestones, including recovery plans and notification to SRH.

SRH's target implementation periods are listed below. The proposer should provide an implementation timeline identifying target periods, milestones, and activities that align with these periods, and should identify and explain any proposed alternative.

- **January 2027:** execute the agreement and finalize scope, specifications, procurement, sequencing, installation schedules, and readiness planning.
- **January–March 2027:** begin Phase 1 delivery and phased replacement of OR lights, booms, monitor arms, and integration systems.
- **April–June 2027:** continue Phase 2 delivery and installation, including related equipment, configuration, testing, and workflow optimization.
- **July–August 2027:** complete remaining installation and integration, validation, staff training, transition, and commissioning.
- **September 2027:** complete final validation, operational readiness, outcome review, financial reconciliation, reporting, and closeout.

Terms, Conditions, and Federal Requirements

General Solicitation Conditions

- SRH may reject any or all proposals, cancel or amend the solicitation, waive minor informalities, request clarifications, negotiate, or make no award.
- All proposal preparation costs are the vendor's responsibility.
- A proposal is an offer and may be incorporated into the final contract. The executed contract and incorporated amendments will control in the event of conflict.
- Vendors must protect confidential information and clearly identify claimed proprietary information.
- SRH is not bound by oral statements or vendor assumptions not accepted in writing.
- The vendor must maintain insurance, licenses, staffing, and controls appropriate to the work and required by the final agreement.
- No work may begin before a fully executed agreement and required purchase authorization.

Federal Award Compliance

This procurement is supported by federal award or subaward funds. Before the final contract is executed, SRH Legal, Grants, and Procurement will review the contract type, total value, funding source, scope of work, award and pass-through terms, and applicable provisions of 2 CFR Part 200 to determine which federal clauses and related federal, state, and SRH requirements must be incorporated. The selected vendor must comply with all requirements identified through that review and included in the final contract.

- Documented competition and procurement integrity.
- Conflict-of-interest and organizational conflict disclosures.
- Contractor oversight, records access, retention, audit cooperation, and performance documentation.
- Cost and price analysis and disclosure necessary to establish reasonableness.
- Applicable affirmative steps supporting small, minority, women-owned, veteran-owned, and labor surplus area firms.
- Applicable domestic preference, recovered-material, debarment, telecommunications, lobbying, equal opportunity, labor, clean air and water, inventions, and termination provisions.
- Applicable contract provisions identified in 2 CFR 200.327 and Appendix II to Part 200.
- Maintenance of records supporting invoices, performance, deliverables, equipment, and grant reporting.

Flow-Downs and Contract Provisions

The selected vendor must flow down applicable federal, privacy, security, data-use, and award requirements to its subcontractors, subprocessors, and suppliers. The final contract is expected to include provisions addressing remedies, termination, applicable laws, records access, audit, privacy, security, incident notification, data ownership and permitted use, data return and destruction, AI governance when applicable, indemnification, insurance, intellectual property, warranties, service levels, deliverable acceptance, transition assistance, and applicable federal award clauses. Any exception must be identified in the Deviation Form with proposed alternative language.

Appendix A

RFP #SUS232 | Rural Surgical Infrastructure Modernization Project - Lights, Booms, and Integration Systems

The proposer must meet the specifications of this RFP.

*****THIS SIGNATURE PAGE MUST BE INCLUDED IN THE PROPOSAL IN THE ORDER SPECIFIED IN THE RFP ORGANIZATION AND FORMAT SECTION*****

Do not include sales tax in the proposal because SRH is tax-exempt. SRH will provide applicable tax-exemption documentation upon request. Submit the proposal and all required supporting documents as a single PDF by email to RHTP@selfregional.org.

Proposers should identify any applicable business classification(s) in the field provided below, including small business, minority-owned, women-owned, veteran-owned, or other. If applicable, include the certifying organization or certification number. If no classification applies, enter "None."

Business Classification	**Certifying Organization or Certification Number**

By signing this proposal, the proposer represents and warrants that it has read and understands this RFP and its terms and conditions; agrees to provide the equipment, supplies, or services described below at the stated prices and in accordance with the specifications listed below or attached; and confirms that all prices and quotations will remain valid for **60 days** from the proposal submission deadline.

Company/Contractor	**Mailing Address**
Federal Tax Identification Number	**City, State, Zip Code**
Unique Entity Identifier	**Fax Number (include area code)**
Email Address	**Telephone Number (include area code)**
Authorized Representative Name & Title	**Date**
Authorized Representative Signature	

Appendix B

DEVIATION FORM

All deviations from this Solicitation must be noted on this form. If no entry is made on the Deviation Form, the proposer confirms its full agreement with and compliance with the Specifications, Terms, and Conditions.

Each response to this Solicitation must include a Deviation Form stating the prospective vendor's commitment to the provisions of this Solicitation. An individual authorized to execute contracts must sign the form. Any exception to the terms and conditions identified in this Solicitation Package must be expressly stated on the Deviation Form.

THIS DEVIATION FORM MUST BE SIGNED BY EACH PROPOSER WHETHER THERE ARE DEVIATIONS LISTED OR NOT, AND SUBMITTED WITH THIS SOLICITATION

Appendix E

INSURANCE REQUIREMENTS

The selected vendor must maintain insurance appropriate to the work throughout the contract term. Coverage must be issued by insurers authorized to do business in South Carolina and acceptable to SRH.

Coverage	Minimum Requirement
Commercial General Liability, including product liability	$3,000,000 per occurrence / $5,000,000 aggregate
Medical Malpractice Professional Liability Insurance	$3,000,000 per occurrence / $5,000,000 aggregate, if applicable
Cyber / Privacy Liability	$5,000,000 per occurrence / $5,000,000 aggregate
Automobile Liability	No less than $1,000,000 per accident for bodily injury and property damage, including coverage for hired/non-owned auto exposures.
Workers' Compensation	Statutory limits and employers' liability required by law

Evidence of Coverage: Before work begins, the selected vendor must provide certificates of insurance demonstrating compliance with Appendix E and any additional insurance requirements included in the final agreement. Updated certificates must be provided upon renewal and upon SRH's request. SRH and its applicable affiliates must be named as additional insureds on liability coverage where appropriate. Coverage must be primary and noncontributory, include waiver of subrogation where permitted, and provide advance notice of cancellation or material change to the extent available under the policy.

SRH may require additional coverage or revised limits based on the nature and risk of the final scope of work. The proposer must identify any requested exception to the insurance requirements in Appendix B: Deviation Form when submitting its proposal.
